

EPT20-ET

Electric pallet truck 2.0t

■ 48V super power,Ideal out-door solution,Longer run time

Mastering urban logistics Designed to cope with complex environment

EP EQUIPMENT CO.,LTD

www.ep-ep.com

■ FEATURE

Light service weight, high rated capacity, not limited by floor type:

Minimum size vs 2.0ton capacity, with 1465mm turning radius.

■ High passability design:

EPT20-ET can easily drive through 100mm height barrier with roll-over load wheel and large drive wheel

80mm lowered height and 140mm lifting height giving flexibility for pallet and application.

■ Easy disassembly handle design:

Pin through tiller style reduces shipping cost and installation time greatly.

DC brushless permenant magnet motor:

Life time maintenance free brushless permenant magnet motor.

■ Innovative frame design:

Distribute majority weight to bottom chassis by cylinder structure.

■ Shock absorb chassis design:

Special linkage design, minimize the driving difference between smooth ground and rough ground.

■ 48V electronic system:

48V electronic system increases efficiency and reliability.

■ Easy maintenance:

Electronic system and batteries can be completely exposed by pressing one-touch locker.

Drive wheel can be replaced by loosing one nut

Retractable charging cord.

 $\begin{array}{c|c} \text{Lowered 8Qmm} & \text{Max Lifting } \\ \text{Height} & \text{2Qqmm} \end{array}$

Optional Turneable load wheel to overcome obstacle Omm (Note:Only available for EPT1 6-ET)

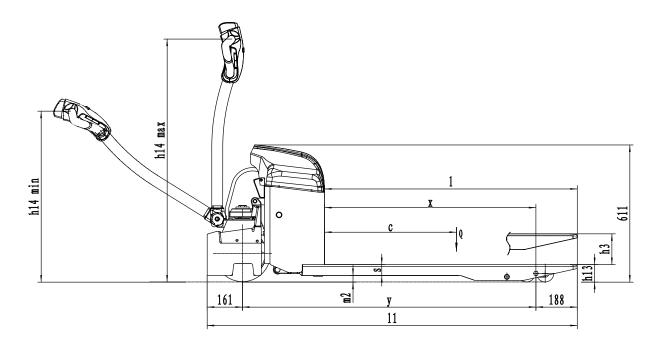

Max. gradeability 8 16%

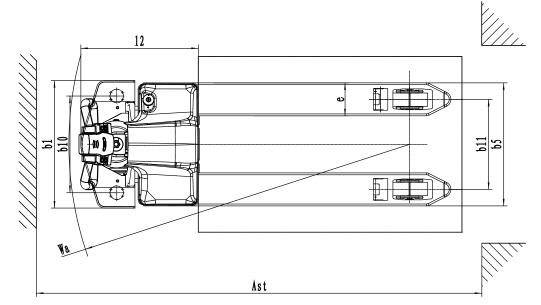

Electric Pallet Truck 2.0t
